## Trump's Net Approval At -6%

Victor Allis Company news May 1, 2025 | 0

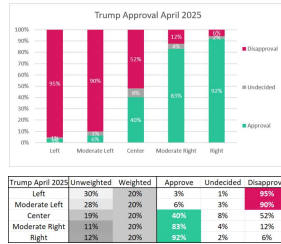

ActiVote's May 1, 2025 presidential approval poll finds that President Trump's approval rating has dropped further to **45.0%**. His disapproval rating stands at **51.1%** yielding a net approval rating of **-6.1%**.

A total of **576** ActiVote users weighed in on Trump's approval between **April 1** and **April 30**. They rated Trump on a 5-star rating, which is then converted into standard "approval" and "disapproval" percentages.

April's numbers are still better than Trump's average over the 48 months of his first presidency (41%), better than Biden's average approval rating for his full term (41%), and Biden's final year's approval rating (40%).
